## RSNA Press Release

### Richard L. Ehman, M.D., Named Chair of the RSNA Board

Released: December 3, 2014

CHICAGO — Richard L. Ehman, M.D., was named chair of the Radiological Society of North America (RSNA) Board of Directors today at the Society's annual meeting in Chicago.

Dr. Ehman is professor of radiology at the Mayo Clinic in Rochester, Minn. As chair of the RSNA Board, he brings expertise in practice, education, research and leadership to support RSNA's mission promoting excellence in patient care through innovation in radiology.

*Richard L. Ehman, M.D.*

"The RSNA has shown a deep commitment to advancing the science and technology of medical imaging through the extensive scientific programming at its annual meeting and through the phenomenally successful grant program of the Research and Education Foundation," Dr. Ehman said. "As chair, I will work with the Board to build on RSNA's legacy of fostering research to help shape the future of medical imaging."

Dr. Ehman earned his medical degree in 1979 from the University of Saskatchewan in Saskatoon, Canada. His internship at Foothills Hospital in Calgary, Alberta, was followed by a residency in diagnostic radiology at the University of Calgary. In 1984, he completed a year-long research fellowship at the University of California, San Francisco. This was followed by a clinical fellowship and his appointment to the staff of the Mayo Clinic in 1985.

Dr. Ehman has authored or co-authored over 260 peer-reviewed scientific articles, several textbooks and over 450 abstracts. He has presented over 210 invited lectures and visiting professorships. He has served on the editorial boards for multiple journals, including *Radiology*, *Journal of Computer Assisted Tomography*, and *Journal of Magnetic Resonance Imaging* and has served as associate editor of *Magnetic Resonance in Medicine* since 1991.

Dr. Ehman served on the Mayo Clinic Board of Governors from 2006 to 2014. In 2014, he was elected as an emeritus member of the Mayo Clinic Board of Trustees. He has been an active member of many medical societies and is past-president of several organizations, including the International Society for Magnetic Resonance in Medicine, the Academy of Radiology Research, and the Society for Body Computed Tomography and Magnetic Resonance in 2013-14.

Dr. Ehman has served as chair of the Radiology and Nuclear Medicine Study Section of the National Institutes of Health (NIH), where he has also served terms on the Advisory Council of the National Institute of Biomedical Imaging and Bioengineering and on the Council of Councils.

Dr. Ehman is an NIH-funded clinician-scientist and inventor. He holds more than 40 U.S. and foreign patents, and many of these inventions are widely used in medical care. Dr. Ehman was awarded the gold medal of the International Society for Magnetic Resonance in Medicine in 1995 for his research contributions and the Outstanding Researcher Award of the Radiological Society of North America in 2006. He is a Fellow of the American College of Radiology. In 2010, Dr. Ehman was elected as a member of the Institute of Medicine of the National Academies of Science, which is one of the highest honors in medicine in the U.S.

As an RSNA member, Dr. Ehman has served on the Refresher Course Committee, Scientific Program Committee, Radiology Editorial Board, Research Development Committee, Grant Program Committee and the Research and Education Foundation Board of Trustees. In 2010, he was elected to the RSNA Board of Directors and in 2011 became the liaison for science.
