RSNA Press Release

Susanna I. Lee, M.D., Ph.D., Named Editor of New RSNA Open Access Journal

Released: June 28, 2023

OAK BROOK, Ill. (June 28, 2023) – The Board of Directors of the Radiological Society of North America (RSNA) announced today that Susanna I. Lee, M.D., Ph.D., has been selected as editor of Radiology Advances, RSNA's first exclusively open-access journal.

"Radiology Advances will provide new opportunities for our authors to publish their research findings and have them be made immediately and freely available to our professional community and to the public," said Jeffrey S. Klein, M.D., RSNA Board Liaison for Publications. "We are excited to welcome Dr. Susanna Lee as the journal's inaugural editor. Dr. Lee is the ideal individual to lead this effort given her broad knowledge of the research landscape and extensive editorial experience serving multiple publications, including having served on our Radiology and Radiology In Training editorial boards over the past several years."

Radiology Advances will include a broad spectrum of high-quality international radiology research, freely available to readers without a subscription. Available exclusively online, the journal will offer continuous publication, featuring primarily original multidisciplinary research articles with a focus on emerging topics, cross-cutting and innovative research. The journal will be published in partnership with Oxford University Press.

Specializing in abdominal radiology, Dr. Lee is chief of women's imaging and officer of mentored research in the Department of Radiology at Massachusetts General Hospital (MGH) and associate professor of radiology at Harvard Medical School in Boston.

"I was delighted to learn I was selected to be the editor of Radiology Advances and felt an overwhelming sense of honor," Dr. Lee said. "RSNA publishes the leading journals in our field. To serve as a founding editor for one of them is a singular opportunity in any career. I am very much looking forward to tackling the challenges."

Born in Seoul, South Korea, Dr. Lee graduated summa cum laude from Harvard University in 1983 and received her medical and doctorate degrees from Yale University in 1990. She completed a post-doctoral fellowship in microbiology at University of California San Francisco, followed by an internship at Miriam Hospital in Providence, Rhode Island. She completed her radiology residency and abdominal imaging and intervention fellowship at MGH. She is a recognized radiology leader, mentor and scientist.

Dr. Lee's clinical and scientific interests include abdominal and pelvic imaging, women's imaging, radiation safety, advanced MRI and CT, molecular imaging and gynecological
