OAK BROOK, Ill. (October 1, 2010) — Radiologist Robert W. Hurst, M.D., from Hospital of the University of Pennsylvania in Philadelphia (HUP), will bring his medical expertise to Brazil as part of the International Visiting Professor Program offered by the Radiological Society of North America (RSNA). The program fosters international relations among radiology societies to assist with medical education in developing and newly developed nations.

Dr. Hurst, professor of radiology, neurosurgery and neurology at HUP, will be joined by two fellow radiologists as he embarks October 7 on the 12-day trip. He will spend his visit giving presentations and teaching intensive seminars to members of Brazilian radiology societies and hospital radiology departments.

The program is mutually beneficial. The visiting team of radiologists informs local doctors and hospitals about the latest advances in diagnostic and therapeutic radiology. In turn, the visiting professors experience firsthand the obstacles faced by medical professionals in the host countries.

"The RSNA International Visiting Professor Program reinforces to me that priority afforded to medical care in a society reflects the priority given to human values in that society," Dr. Hurst said. "Because medical education is the major mechanism by which medical knowledge is transmitted and advanced, the visiting professor program reflects well on all participating countries. Consequently, I consider it an honor as well as a pleasure to participate."

Dr. Hurst is accompanied by Erik K. Paulson, M.D., from Duke University Medical Center in Durham, N.C., and Donna G. Blankenbaker, M.D., from University of Wisconsin School of Medicine and Public Health in Madison.

Dr. Hurst will attend the Brazilian Congress of Radiology at Rio Centro in Rio de Janeiro, visit Clinica da Imagem de Goiania in Goiania, then travel to Belem where he will visit

Hospital Ofir Loiola and Clinica Lobo.

The International Visiting Professor Program was founded in 1986 and is administered by RSNA's Committee on International Relations and Education. This program is supported by Agfa Healthcare.

###

RSNA is an association of more than 44,000 radiologists, radiation oncologists, medical physicists and related scientists committed to excellence in patient care through education and research. The Society is based in Oak Brook, Ill. (RSNA.org)

The RSNA Committee on International Relations and Education was established in 1986 to advise the RSNA on how the Society might provide international assistance to enhance radiologic education in countries requesting and requiring assistance. (RSNA.org/International/CIRE)
